V.I.P. Cylinder Program fine print

As with almost everything in life, the devil is in the details, so here we are happy to share the detail, or as most call it, the fine print.

You are purchasing your own New Aluminium Cylinder that comes pre filled with helium to inflate the number of balloons that you choose. You own the Cylinder, we swap the cylinder when it is empty with another cylinder of the same size when you need it, no limit on time. It could be once a month, once every 3 months, once every 6 months and you never ever pay rental as it's your cylinder.

We are the only Company that can swap the empty cylinder for a new one, you cannot swap it with any other helium supplier. All orders and cylinder swaps are done online on the helium2go website via the V.I.P Login area where you see V.I.P only pricing.

You can swap cylinders and pick up a balloon or accessory order from our warehouse in Slacks Creek or we can deliver the swap cylinder to you. It is free delivery on any order of \$100 or more.

You can even swap cylinders after hours and on weekends as long as you book online and give sufficient notice. You can call us until 7pm any day including weekends, in case you have an urgent request and as a V.I.P. Cylinder owner, we assure you the most incredible service.

(after hours deliveries and urgent deliveries will incur additional fees)

**If you are sick of being treated like a 2nd class citizen and want Superlative Service
If you are sick of paying dead money in cylinder rental - then this program is for you.**
